Projects

INTELLECT-INN

React, Nodejs, Express, MongoDB, Typescript, Chakra UI

Designed and built a full stack medium.com clone, where users can view, write, edit, and delete articles and comments and follow each other.

- Implemented Google authentication using Passport.js and Express
- Created a beautiful frontend design with Chakra UI and React
- Used Zustand for simplifying react state management
- Integrated Cloudinary for handling thumbnails and profile picture uploads

Skills

React
Nodejs
MongoDB
Express
JavaScript
Typescript
Linux
Git

FROST

React, Nodejs, Express, MongoDB, Chakra UI

Built a full stack Facebook clone where users can view, create, edit, and delete posts, also users can comment and like / dislike other posts.

- Created UI with the help of Tailwind CSS
- Used React context for managing posts, comments and user states.
- Implemented Google authentication with Passport.js and Express
- Integrated Cloudinary for handling profile picture uploads
